

## Deep Penetrating Primer - Water Based

*This product has been designed as a quick drying, penetrating primer to prepare powdery surfaces for painting, exhibiting excellent wetting and adhesion to a wide range of substrates.*

### AVAILABILITY

<i>Colour Collections</i>	Clear.
<i>Packing</i>	10 Litres.
<i>Pot Life</i>	Once opened the shelf life of this product is unpredictable.

### PROPERTIES

<i>Description</i>	An Ultra fine particle size pure acrylic copolymer.
<i>Uses</i>	Interiors • Exteriors • Friable Concrete Surfaces • Chalky masonry or Plaster • Substrates of uneven porosity
<i>Drying Time</i>	Touch dry in up to 2hrs and re-coatable after 6hrs under normal conditions.
<i>Spread Rate</i>	Up to 10 sq. meters per litre per coat depending on surface profile and porosity.
<i>Preparation</i>	Surface contaminants such as oil, grease, dirt etc. are to be removed using a degreasing agent. It is vital that the surface to be coated is clean and dry before coating.
<i>Application</i>	Supplied ready for use. Stir very well. Apply by brush, roller or spray. Do not apply this product too thickly and avoid building layers on the substrate's surface.
<i>Cleaning</i>	Clean all equipment with water immediately after use.
<i>Precautions</i>	Painting in damp or humid conditions may extend drying and overcoating times. Rising damp will cause coating to lift.

Use only in well ventilated areas during spraying. In case of insufficient ventilation during spraying wear suitable respiratory equipment.  
Do not breath vapour / spray.  
In case of contact with eyes, rinse immediately with plenty of water, seek medical advice.  
Keep out of reach of children.

**No Lead Added**
